- ◆ 11/3/22 - Quiz night
- ◆ 1/4/22 - Disco
- ◆ 8/4/2022 - Last day of term

Lego competition!

We found out this week we are one of 30 lucky schools across Devon to win over £300 worth of Lego! We will be entering a competition to design and build a model of a building for Exeter's future in Lego! More details after half term - but children could start thinking of designs through half term.

Half Term Holiday club

As half term approaches, you may have seen on the School Story of Class Dojo Mr. Luxton's message about a holiday club which will be happening in school. The company who run it are called Premier Education (they also run our after schools multi sports clubs.) There are TWO days available: Thursday 24th (multi sports) and Friday 25th (gymnastics). Each day costs £15 and booking can be done through their website: premier-education.com/holiday-camps

Tree planting in Cowick Barton Playing Fields

Two of the school's Eco councillors from Year 6 joined other environmentally conscious pupils from other ELAT schools for a day of 'green' activities including planting two oak trees. The children said they had a great day, and staff who accompanied them said they were exceptional in all ways and a real credit to the school.

Parents' evenings next week

We are really looking forward to face-to-face parents evenings again! We are so pleased with the great take up so far (for bookings see School Story on Class Dojo). It's a lovely chance to talk about your child's progress in their learning. We would ask for **face-coverings** to be worn, and the rooms will be well ventilated as they currently are every day in school - fingers crossed for good weather!

Fire Service visit

On the 1st February we were lucky to be visited by staff from the Devon and Cornwall Fire Service. They talked to the children of Years 2, 3, 5 and 6 about fire safety. They do offer a **free fire safety check**, if you are interested then you can go online and book a free visit!

THE COMPETITION IS NOW OPEN

'DESIGN AND BUILD A MODEL OF A BUILDING FOR EXETER'S FUTURE' IN LEGO®
